GB to EU pet travel form

Please complete this form and return to info@bromyardvets.co.uk in advance of your appointment.

Please make sure you tick the declaration at the end of this form.

We will need you to bring proof of rabies vaccination and proof of the pet identification to your appointment. If you have a Pet passport that was issued before 31.12.2020 this will suffice. If not, then please bring your vaccination card that shows the current rabies vaccination, and a document confirming that your pet has been microchipped.

If you have any problems obtaining these documents, please contact:

Tapeworm treatment is required for dogs when travelling from Great Britain to EU listed tapeworm free countries including Northern Ireland, Malta, Republic of Ireland and Finland. These dogs must be treated for tapeworm not more than 120 hours and not less than 24 hours before time of entry into one of these countries.

I am travelling with my dog to:

- Northern Ireland
- Malta
- Republic of Ireland
- Finland
- None of the above

NB: before returning to Great Britain dogs must be treated for tapeworm not less than 24 hours, not more than 120 hours before time of entry except for return from Northern Ireland, Republic of Ireland, Malta or Finland. You must take your AHC with you for this treatment to a vet in the EU country you are in, there is a section of the form to be completed by the EU vet.

If you are leaving Great Britain on a short trip returning within 120 hours, you need to arrange for this treatment before leaving.
